

Low Bid Offered For Construction Of Shortcut Road

A low bid of \$332,346 was received Wednesday by the California division of highways for the reconstruction of Truckee Short Cut in Placer County from its junction with State Sign Route 28 at Kings Beach to a point 2.7 miles north.

H. Earl Parker of Marysville was lowest of four bidders, according to officials at the Marysville district office.

Construction on the short-route county road between Truckee and the Lake Tahoe north shore will include improvement of the existing alignment, and widening to 40 feet through the Kings Beach area and to 30 feet in the mountain region to the north.

Start of work depends on the current labor dispute. Once underway the job is expected to take about five months to complete. However, prolonged labor difficulties and winter weather could move completion into next year.

During construction through traffic will be detoured over county roads as well as on a short detour built by the county in anticipation of the project.

This most recent contract is the third and final phase of the reconstruction of the total 10 miles between Kings Beach and the Nevada County line.

As part of the federal aid secondary system, the route is included in the state-wide program of improving these important county roads. The project was initiated by the Placer County board of supervisors, and plans and specifications were developed under the direction of former County Director of Public Works Bruno Bacci in cooperation with the state division of highways.

Since FAS projects are financed mainly by federal and state funds, federal law requires that all FAS construction in Placer County be done by state contract under the general supervision of the division of highways' district office in Marysville.

Truckee was far in the lead of the other border stations as a point of entry, Yermo being second with 99,219 cars.

At the Meyers station on Highway 50, 18,317 cars, 260 trucks and 45 buses with 47,064 passengers were checked last month. This was a gain over April but a loss of some 5,000 cars as compared to May, 1961.

Board Turns Down State's Bid For Special Deer Hunt

The Nevada County Board of Supervisors, by a vote of 4 to 1, last week passed a resolution banning an antlerless deer hunt in the county as proposed by the state fish and game department.

Strong opposition to the hunt was voiced by the Truckee Outdoor Sportsmen. The only vote against the resolution was cast by Supervisor Neal Hennessy, with Board Chairman Henry Loehr urging its passage.

Under terms of the proposed hunt which would have extended from three days after the opening of the regular season to three days before the close, hunters would have been permitted to shoot does and fawns without spots and everything but forked horns.

Local sportsmen hailed the action of the board with enthusiasm as the big project they have this year is to increase the fading deer population in this region.

The Placer County Board of Supervisors some time ago approved the hunt which will put a burden on enforcement officers to prevent hunters in that county from crossing the county line into Nevada County.

Two of the units are nearing completion and Pfeifer, his wife and two daughters, will be the first residents in the area, planning to remain permanently.

Pfeifer, who owns and operates the Bird and Bottle in the same vicinity, said the new homes will be built two at a time and will provide a recreation area, with access to Donner Creek and a planned development. The chalets are being constructed by the Auburn Lumber Company.

The developer, who he had also acquired the Graves Cabin site, consisting of 4½ acres, said he planned development of a tower apartment there with perhaps a future shopping center. This property is located between the freeway and old Highway 40 and is just west of the elementary school.

Truckee Pioneer, C. E. Smith, Dies; Rites Held Today

Truckee lost its oldest resident Tuesday morning when Charles Elihu Smith, 90, a resident of this community for more than 86 years, expired at Nevada City where he was undergoing treatment for a fractured hip suffered in a fall a week ago.

A native of St. Louis, Missouri, Smith was born March 15, 1872. He came to Truckee by train with his mother, sisters and brothers, following his father, who made the trip ahead of them in a wagon train in 1876.

The family first lived on the present Brockway shortcut near Truckee and he attended local schools. He was employed in his youth in the various lumber camps of the region, preferring this to clerical work at which he was also adept.

The "Judge" as he was known to scores of friends, recalled many interesting highlights of the early history of Truckee, the Indian camps nearby and how he was once shot at five times by a drunken brave but luckily escaped harm.

In 1898 he was married to the late Gertrude Ridler of Carson City, who he met during a skating party at Donner Lake. His wife died in 1943.

Fraternally, Smith was a charter member of the Elks Club.

Stead Defeated In Game At Truckee

Second baseman L. J. Robinson's bases-empty, opposite field home run in the bottom of the ninth inning gave the Truckee-Tahoe Mountaineers an upset victory over league-leading Stead Air Force Base Saturday in a Sierra-Nevada League game. The Air Force nine was undefeated going into the ball game. Robinson's blow came with a count of three balls and two strikes.

The four-bagger was almost as unbelievable as the Mountaineer rally which saw them overtake a sixth inning Stead lead of 9-3. The victors rallied for two runs in the seventh and four in the eighth to tie the score at 9-9 and set the stage for Robinson's deciding hit.

Tahoe-Truckee reliever Stan Gould came into the contest in the seventh frame and allowed the losing Air Force men only one hit in the remaining three stanzas. Mike Robinson started for the Mountain Men and was relieved by Craig Robinson in the fourth. Stead picked up seven runs in the fourth inning topped by a bases-empty home run by Webb.

Craig and L. J. Robinson had two hits apiece for the victorious Mountaineers.

Direct Dialing Will Be Started Here Sunday, July 1st

Sunday, July 1, is the day Pacific Telephone customers in Truckee, Tahoe City, Brockway and Crystal Bay will be able to start dialing their own long distance calls; Manager J. C. Domergue said this week.

Automatic electronic equipment will make it possible for phone users in this area to dial their own station-to-station calls to more than 50 million phones throughout California and the nation.

To dial a long distance call, customers will dial "1" which connects them to the direct distance dialing equipment, then the phone number itself.

Three digit area codes must be dialed before the phone number on calls outside the Lake Tahoe-Sacramento area, Domergue said.

Domergue said special calls, such as person-to-person, may still be placed through the operator.

Customers in Homewood are scheduled to get direct distance dialing around the end of this year. The south Tahoe area will be able to dial long distance calls when a new equipment building, soon to go under construction, is completed.

Meanwhile, some 350 pay phone booths around the lake and at Truckee are being switched over to a simplified pre-pay arrangement.

Under the new system, pay phone customers will deposit their money first, then dial their call when they hear a dial tone.

Most of the pay telephones around the Lake have already been changed to the new system, and the pay phones in Brockway will be changed shortly, Domergue said.

County Will Gain Donner Highway

Nevada County definitely will assume control and administration of old Highway 40, particularly that area along the north shore of Donner Lake, when the new Donner Summit freeway is completed and integrated into the state system.

Nevada County supervisors last week from their legal counsel Assistant District Attorney William Cassettari, stated that the county would take over the old highway as a county road. By this action they turned down a request by the Donner Lake Development Company that the right-of-way, which was originally granted as an easement for highway purposes be returned to them as the successors in interest of the original owners.

They claim that the original easement contained a provision of return to the original owners when no longer used as a highway.

Alan S. Hart of the division of highways said the original papers contained no such reservation. Assistant District Attorney Cassettari said he found no such reservation. The state said they would relinquish the highway to the county. The county said they would accept it.

The supervisors adopted a resolution asking the division of highways to keep old Highway 40 free of snow, when it is returned to the county in accordance with provisions in the code. It was stated that this is necessary to maintain the winter sports industry now located along Highway 40 at the higher elevation.

HOW MUCH DOES A BULLET COST?

It all started when I was practicing with my new rifle.

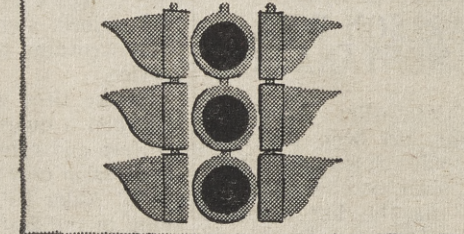

Just for fun I took a shot at one of those insulators on the power pole.

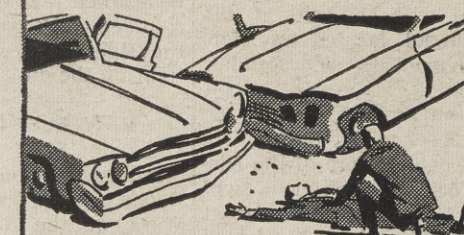

I didn't think that it would cause a power failure somewhere...

...and maybe stop a traffic signal from working.

And I sure didn't think this would happen.

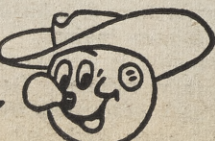

The five piece insulator that this marksman has put out of action costs \$18.31. It takes a crew of five men and special equipment to make repairs, at a cost of about \$35.00 an hour. And finally, the end result from

a power interruption could mean a wreck on the highway, miles away and the highest price of all, a human life. So Dad, be sure to teach your boy good rifle habits.

BREAKING AN INSULATOR COULD COST A LIFE!

Busy, busy, busy. Don't kids ever get tired? Was quite sure of it the night of graduation, believe me. After those wonderful graduation exercises the class of '62 of the elementary school gathered for a dinner-dance at Smart's. A better behaved group I have yet to see. They presented Mrs. Drummond and Mrs. Roberson a gift certificate in appreciation for all these two talented teachers had done for them. But out a clear

sky and a twist record, my little neighbor friend Chuck Traynor announced the group would meet at Pankoke's for a post graduate party. When Bob and I drove in the yard a little later, it looked like an invasion. Did anyone ever try to get coke at 11 o'clock at night, by the case I mean? Fun, fun, fun and I really mean the gang did with Bob and I and Mrs. Roberson chaperoning. So that is over, phew.

The high school band was to have had their picnic at Sandy Harbor last Thursday, but got rained out. Tough luck kids. The newsmen here to cover the area for a better picture of what goes on really had a ball at Donner Lake

last weekend. Miss Donner Lake of '61-'62 in the person of Sandra Van Sickle was quite a sensation riding a boat standing up holding on to a rope and the cameras really clicked. With her were the candidates for queen as the '62-'63 Miss Donner Lake. I would sure hate to have to make that decision. A board meeting was held at the home of Janet Franklin last Tuesday in preparation for the regular meeting of the Donner Lake Volunteer Fire Department Auxiliary which is taking place tonight at Soda Springs Lodge at 7 p. m. See you there.

One of the most interesting bits of news to be brought to my attention this week involves a very nice neighbor. Mrs. Frank Lang, better known to us all as Paula Quist's mother, was graduated from San Francisco State recently where she majored in education. Flo now has her teaching credentials for elementary grades. Congratulations and happy birthday too. Flo celebrated her birthday on Father's Day while here at their lake home.

Some of the small fry at Donner are mad as wet hens these days. Little Melissa Ciandro, Mark Walker and Richy Quist all have the chicken pox. Down in the Gateway section Denise Clepper is ready

GRADUATES ENJOY DANCING AT SQUAW

TAHOE CITY — As a grand finale for their four years at Tahoe Truckee High School, this year's graduating class celebrated at a parent-sponsored, all night prom held at the Nevada Building immediately after graduation exercises Wednesday night. The students enjoyed dancing to live music and a buffet dinner at the affair which was planned and executed under the direction of Mrs. Jerry Batt.

Other parents and faculty who chairmanned committees for the prom are Mr. and Mrs. Wilbur Glenn, Mr. and Mrs. Bill Goodhue, Mrs. Margaret McWilliams, Mr. and Mrs. Karl Rigor, Mrs. Ben Ferrari, Harold Tiller, Harry Stevens, Frank Austin, Mrs. A. Comola, Bill Parsons, Ray Plunkett, Sharon Inderri and Jim Licklider. Students participating in the planning were Cookie Smart, Ben Ferrari, Jr., Sue Scott and Milton Batt.

to blow her top, she has the mumps. Here at Donner, Bob Pankoke is ready to bury his head in the sand. . . he don't like my puns. Oh, well.

Mrs. Harold Gilson is graduating at University of California Hospital in San Francisco Friday with a certificate earned for continuous attendance of a course in education in health sciences which she has attended for a year in various parts of California. This course is sponsored by the University of California and is offered to nurses such as Mrs. Gilson. Good work, Gilly.

By the way, if anyone hasn't met Rick, and it has just been my pleasure, be sure and stop in at the now opened again Bird and Bottle. Rick is the clever wit that serves up the giggle water and quick retorts. Seems Rick has been around these parts for some time but this is a first in the Donner-Truckee area. Welcome.

It's done. No more to tell this time. Gotta hurry and get up the hill to put the decorations on the table for our meeting. Now that you have finished reading, why don't you hurry and come along. Remember, Soda Springs Lodge at 7 (sharp) Thursday . . . tonight.

COOKING with GAS!

Our little blushing bride blushed because her stove was the saddest sight in seven states. Small wonder. She used to cook on a so-called "flameless" (but not blameless) range. Boil-overs, caused by Hangover Heat, were a constant problem. Poor dear wore her hands and temper raw cleaning up unsightly messes caused by coils that were still "hot" when they were "off."

Then she switched to wonderful GAS! Boil-overs banished forever! She had 1001 different heat settings at her command. GAS is on and off—instantly.

We've cooked up a special bonus buy on a direct factory purchase. You'll save a fat \$20 bill if you buy this new GAS range today.

You're money ahead when you buy your GAS range from us. We're specialists in GAS appliances, and we service what we sell.

PIER QUESTION WILL BE DECIDED IN MEET

TAHOE CITY — Among other items to be considered by the Placer County Planning Commission when it meets at Tahoe City tomorrow will be the appeal of Boyd Fountain of Dixon to construct a pier at Carnelian Bay. Fountain's application for the project was denied by the commission on the ground the pier would encroach on the right of

way of a public street. Fountain appealed to the board of supervisors and Supervisor J. Paoli urged the board to halt further encroachment on public beaches, stating it is depriving the public from using the lake frontage. He pointed out a recent court decision in favor of the county, denying a quit claim to a Tahoe beach. So the controversy of public versus private rights on Lake Tahoe has started to boil again.

BIDS ARE RECEIVED FOR SIERRA ROAD JOB

The state division of highways received a low bid of \$111,472 for the resurfacing of a total of 14.1 miles of State Sign Routes 89 and 49 in Sierra County south of Sierraville and between Sierraville and Loyalton. Harnes Brothers of Sacramento was lowest of three bidders, according to officials at the Marysville district office.

A one-inch blanket of asphalt concrete will be laid on the existing 22-foot width to improve riding qualities and reduce maintenance costs. SSR 89 will be repaved from Sierraville to a point four miles south. Resurfacing SSR 49 will include 5.1 miles from Sierraville north, and from the Loyalton city limits to a point five miles west.

Planners To Meet At Tahoe Friday

TAHOE CITY — A meeting of the Placer County Planning Commission, Friday at the Tahoe City Community Center will be devoted to Tahoe area planning matters. In announcing the meeting Planning Commission Chairman C. A. Gibbs, stated that 15 local planning items are on the scheduled agenda.

Two plans for house numbering will be presented for study at the meeting. According to County Planning Director Justin F. Barber, one of the systems with its number series starting at the Nevada County line would require a five digit house number in certain parts of the North Shore region.

An alternate system with point of beginning at the Tahoe City "Y" would permit four digit numbers throughout the Tahoe area.

Pier permits and the jurisdiction of various agencies concerned is another major interest item on the agenda. Representatives of the state lands commission and the U. S. Army Corps of Engineers are expected to attend.

Other items on the agenda include: study of new subdivisions—Dollar Point No. 3; Bear Creek Association (Alpine Meadows area); Tahoe Palisades (south of Truckee); and Chamberlands No. 2.

Discussion of proposals to modify sign limitations in certain motel and commercial zones on the north shore are also slated for the meeting.

The meeting will begin at 9:30 a. m.

POWER TODAY Costs You Less in 1962 Than It did in 1942

A kilowatt-hour of electric power actually costs you about 30 per cent less today than it did in 1942.

Had the prices of electricity risen at the same rate as other consumer prices, you would be paying 80 per cent more per kilowatt-hour than in 1942.

You would be paying about two and one-half times your present electric bill.

DIVOT-DIGGERS

By BETTY KIELHOFFER

"What a 'dizzy whirl' of events we had this weekend. Probably the biggest news-wise that happened to our area in a long, long time. We had some 40 news writers in the high Sierra Friday, Saturday and Sunday and they were wined and dined royally by all the active organizations.

Sunday was 'our' day in the Truckee-Donner area with many of the locals hosting them on a grand tour to the spots of interest. They finished up on the Ponderosa Golf

Club with cocktails and a barbecue, prepared by Smart's. Cameras were going all over the place, with Jackie Jensen in the limelight most of the time. . . . Probably the most well-known reporter was Prescott Sullivan, who was with us at Smart's and Squaw Valley Friday and made a visit to the Ponderosa Saturday before flying back that evening.

Watching him across the room on first impression, one might think he's tough as nails but he soon dispelled this with his warmth and sincere interest in what's going on around here. He has great affection for the Sierra and was a lit-

tle remorseful to see it becoming so crowded. He said it was great for economy but was reminiscent of the 'old' days, when fishing was easy and the living was rugged. Our talks were interrupted frequently as he raced out to one of the automobiles in the parking lot to check on the ball game.

We were thrilled to see his article in the Examiner Monday morning giving the area, and Squaw Valley particularly, a big boost. This type of publicity doesn't hurt us a bit. He was most anxious to inquire of everyone here what they thought of the Squaw Valley operation and agreed whole-hearted-

ly that it's had a bad break in the news of late. To quote him, "what state park in California does make money? The important thing is that so many thousands of people are getting enjoyment from it,"—and that's it in a nutshell. I promised to send him this article so, to "Sully," as he is known to his newspaper associates, we are sincerely grateful for the kind words defending Squaw Valley and will be looking forward to his next visit, which he said will be soon.

Be watching all the Sacramento and bay area papers during the next two weeks as all the writers promised to give the area full cov-

erage.

For the local news, Bob Moore and Charlie Fink attended a program tournament at the Lake Merced Country Club and said they were given a terrific reception. They were there to represent our Ponderosa Course and the Country Club. They received many invitations for the club for return engagements and will give a full report on this at our next club meeting. Bob said to be certain to remind all you golfers that the evening Scotch-foursomes are now in progress and to come up any evening to join in the fun. Some of them are out most every night

but we'll soon setup one evening most convenient for everyone and make it a big affair like last year. Don't forget to come out to the work party planned for 5 p. m. Friday. Bring your pick-ups and lots of 'muscle' 'cause we're really going to play havoc with those rocks and sagebrush. Jackie Jensen and Alex Stewart are furnishing hot dogs and the country club will bring the refreshments.—Call Bob if you need more particulars and we'll see you there.

Fort Ross was one of the first historical sites to be set aside for preservation by the State of California.

MARGARETTE RING MARRIED AT RENO

Mr. and Mrs. Aram Jorjorian Jr., are at home to their friends in Sacramento, following their wedding which took place April 14 in the Park Chapel at Reno, in a double ring ceremony, Methodist service held at 2:30 in the afternoon. Mrs. Travis Blythe of Citrus Heights was matron of honor and Fritz Kramer of Sacramento acted as best man.

The bride, the former Margarette Yvonne Ring was given in marriage by her father, Albert Ring of Auburn and was lovely in her selected gown of white brocade, made in street length with round neck and three quarter length sleeves. Her headdress of rhinestones and beads was her borrowed article and she carried a bridal bouquet.

Mrs. Jorjorian, has been a frequent visitor here with her grandfather, Richard Joseph and aunts, Mrs. James McIver and Mrs. Roxie Archie who attended the ceremony. Mr. and Mrs. A. R. Jorjorian and son Paul, of Sacramento, parents and brother of the bridegroom and her mother, Mrs. Albert Ring of Auburn were also present. Mr. and Mrs. Fritz Kramer, James McIver and Travis Blythe were also present at the rites.

The young couple spent their honeymoon in Hollywood and Disney land.

PARK COMPACT WILL STUDY FIRST DRAFT

CARSON CITY—Members of the Nevada bi-state park compact are expected to meet June 22 to discuss a preliminary proposal for a California-Nevada park at Lake Tahoe.

Russ McDonald, bill drafter, submitted a first draft of the proposed compact to the Nevada legislative counsel bureau Monday. The draft was patterned after interstate parks compact between Kentucky and Virginia.

Two of the key provisions of the compact are that land ownership would remain with the individual states and that gambling would be outlawed. In this case the 20,000 acres involved are all in Nevada with California expected to finance the development along the east shore of the lake.

A final compact draft will be submitted to state legislators next year.

TESTS REQUIRED BY CULINARY WORKERS

TAHOE CITY — Effective June 1, a recently enacted Placer County ordinance requires that all individuals working in public restaurants show evidence of lack of tuberculosis. This ordinance was supported by the Tuberculosis and Health Association of Placer-Sierra County, Placer County Health Department, Placer-Nevada Medical Society and Bartenders and Culinary Workers Union.

Dr. Richard F. White, director of the Placer County Health Department advises restaurant workers to obtain either a skin test or a chest x-ray as evidence.

Since public facilities are not available for such examination at Lake Tahoe, the health department has set up a series of testing clinics. They will be at Tahoe City Community Hall between the hours of 10:30 and 11:30 a. m. June 11, July 23 and August 13.

The tests will be available in Kings Beach at Carpenters Hall on the same dates between 2 and 3 p. m.

In addition, a mobile x-ray unit will be in Kings Beach July 2 from 9:30 to 12:30 and from 2:30 to 5:30 p. m. and at Tahoe City July 3 from 10 to 1 and from 4 to 7 p. m. at Safeway Shopping Center.

CRASH PROGRAM TO BEAUTIFY SQUAW STARTED BY STATE

SQUAW VALLEY—Paul Griffith, supervisor of the state park at Squaw Valley, announced this week that work has started on a crash program to brighten up the area and that \$35,000 in state funds has been earmarked for the project.

Although the funds have not yet been placed at the disposal of the park, Griffith has been assured by Robert Harkness, deputy director of finance, that they will be forthcoming.

In the meantime, work which does not require immediate financing has started. This includes 14 new flag poles, an illustrated 40-foot sign to be placed at the entrance of the park on State Route 89 and a duplicate sign at Blyth Arena; landscaping, 70 picnic tables, directional signals, riding and hiking trails.

The Pacific Telephone Company, Griffith said, has donated equipment and crews for installing the flag poles.

TRAFFIC DELAY OVER ON TAHOE HIGHWAY

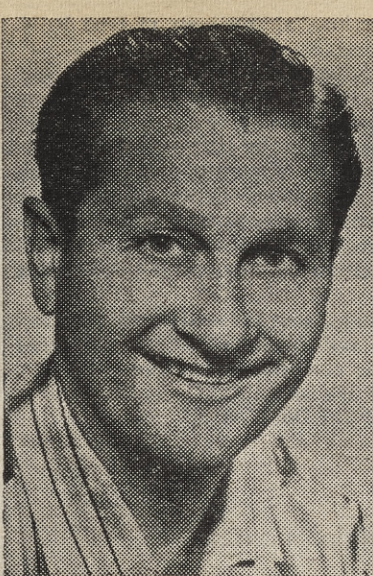

KINGS BEACH—Traffic delays on Highway 28 due to construction activities are finished, according to Ed Miller, division of highways operations engineer. Miller said the job was on schedule and undoubtedly would have been finished had it not been the unforeseen strike which has closed asphalt paving material plants in the area.

Miller also said that once the strike was concluded, paving would take approximately two weeks. Meanwhile road oil is being applied to the finish grade to provide a smoother dust free surface for travelers.

JILL STOLLERY WILL DIRECT LOOMIS CHOIR

BUDGET BOOST FOR SIERRA ANNOUNCED

In anticipation of an increase of 15 to 20 per cent in enrollment at Sierra College next year, college trustees Tuesday (June 12) approved a 1 per cent increase in the tentative operating cost budget of the Placer-Nevada-El Dorado Counties district. The '62-'63 operating budget will be \$976,000 for the fiscal '62-'63 year.

Administrators predicted the budget will cause no change in the current 35 cents per \$100 assessed valuation tax rate. The bond tax rate is expected to drop from 19 to 15 cents this coming year, President Harold Weaver predicted.

from San Mateo, where she received her early music training. Jill graduated from Tahoe-Truckee High School in 1961, where she played with the dance band and for the school choirs. This experience led to a keen interest in choral work. Jill is adept on both the piano and the organ and has played for many local service clubs and social functions and weddings.

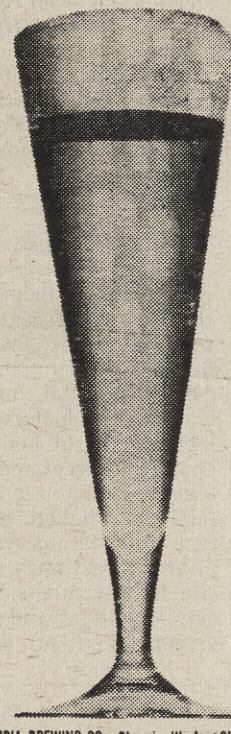

She will leave the lake in July to participate in a week of intensive training in church choral and choir classes, and demonstrate her skills in this field at Asilomar.

LEAKE WINS ON BOTH PARTY NOMINATIONS

With the aid of his Republican friends who were urged to write his name in on the primary election ballots, Paul Leake of Woodland won both the Democratic and Republican nomination for his post on the state board of equalization.

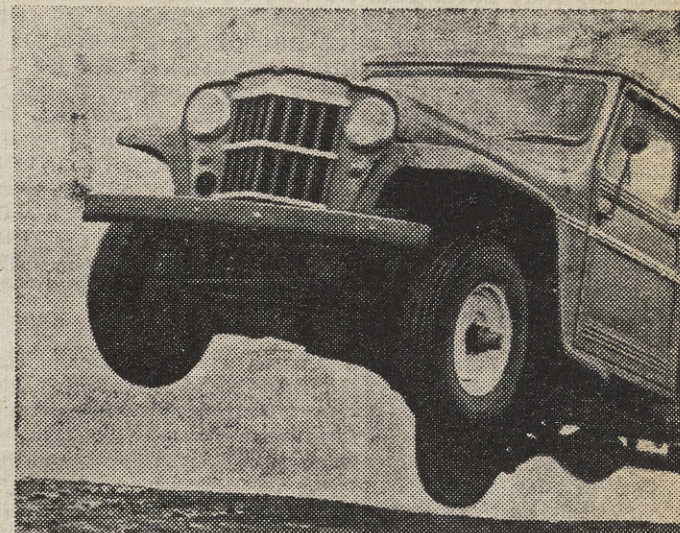

Republican D. R. Humer of Live Oak was an unexpected write-in, hoping to qualify for the general election but Leake's Republican friends put a stop to the maneuver.

Under the order issued last week by the public utilities commission, Pacific Telephone and Telegraph Company was authorized to consolidate its Tahoe City and Brockway exchange into one exchange designated as North Tahoe, with exchange district, and base rate area.

The company was also authorized to cancel existing exchange rates and to file extended service rates for Homewood, Truckee and North Tahoe exchanges and to cancel toll rates applying between Tahoe City, and Brockway, Tahoe City and Truckee, Tahoe City and Homewood and Truckee and Brockway.

The decision by the commission followed a hearing here April 26 before Commissioner C. Lyn Fox and Examiner Martin J. Porter during which only one objection was voiced to the application of the company.

The evidence indicated, according to the commission's finding, that the applicant had numerous requests for the proposed service. Twenty-one persons representing business, social, church and school organizations were in favor of the proposed service.

When the service is inaugurated, a slight increase in present rates will be effective, with a one party business line, as an example going from \$7 to \$7.75 in Truckee and North Tahoe and from \$7 to \$7.50 at Homewood. A one-party individual phone in Truckee and North Tahoe will advance from \$4.40 to \$4.75 while at Homewood it will go from \$4.40 to \$4.60.

C. E. SMITH

(Continued from Page 1)

member of the Eagles Lodge and the Truckee Lodge of Odd Fellows, having joined the latter at the age of 21.

Many and varied were his activities. He and the late Pomp Franzini operated a grocery store here for 17 years prior to that he ran the state and mail route between Truckee and Sierraville, carrying the mail to Hobart Mills on skis during the winter months.

Smith was for many years owner of the City Transfer and served as justice of the peace from 1933 to 1945, retiring because of failing eyesight. For a time he had the Oldsmobile agency here in the middle '20s.

He was always active in civic affairs and was a charter member of the Truckee Chamber of Commerce, organizer of winter sports, a first director of the Truckee Public Utility District, was active in the promotion of Highway 40 through the Truckee River canyon and was active in other community projects.

Smith was one of the 13 purchasers of the McGlashan Water Company which since was taken over by the utility district.

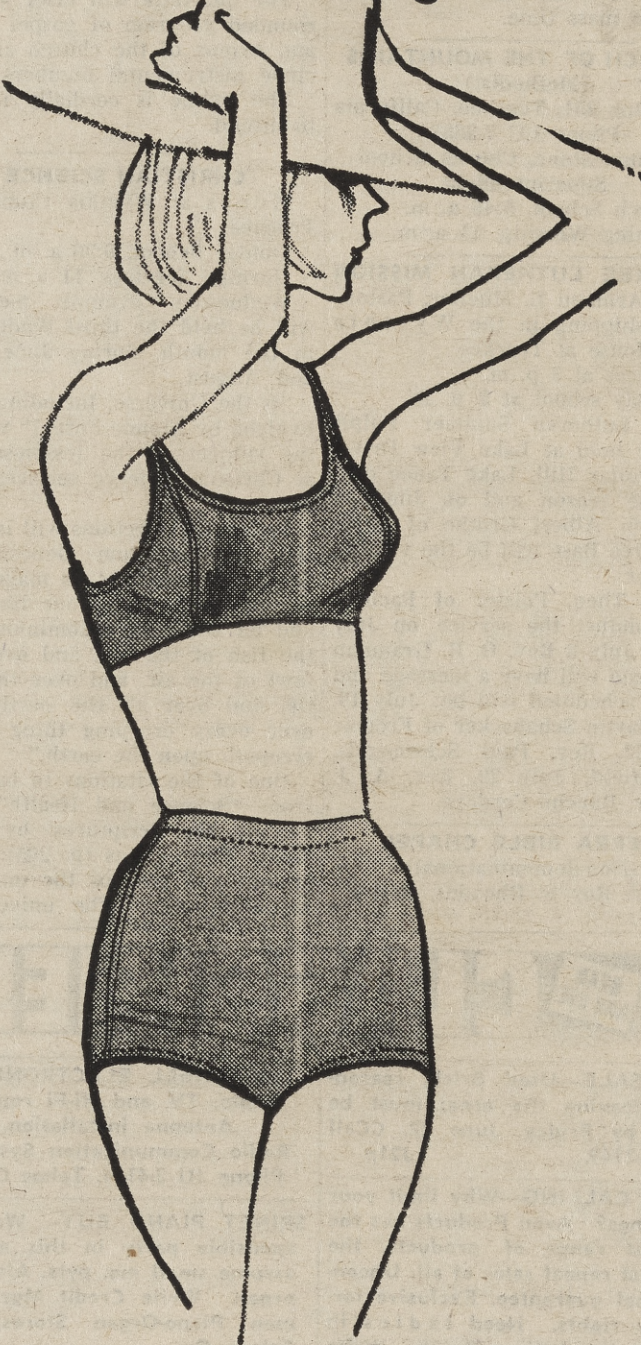

During recent years, the judge has kept active and daily walked to the main well of the utility district to report on the water situation. He was seen each day, winter or summer on his walks about town, visiting friends.

Only one son, Earl H. Smith, survives. There are three grandchildren, Earl H. Smith, Jr., Mrs. Gertrude Rablin, both of Truckee and Charles E. Smith of Arcata. There are four great granddaughters.

Last rites will be held this Thursday afternoon at 1:30 p. m. at the Truckee Colonial Mortuary, with cremation to follow.

The entire community is saddened by Judge Smith's passing and his activities in promoting the progress of the area will be long remembered. Sincere sympathy is extended to the bereaved family.
